

InstaBin® 1

Patented

Safer Worker Assembly Program (SWAP)

CONSIDER THIS!

- Lighter design reduces fatigue
- Deploys with one person in 1.5 to 5 seconds
- Eliminates the need to turn over to assemble
- Collapses flat in 2 seconds for redeployment or recycling
- Use minimizes repetitive task injuries
- Workers no longer feel they are being punished by “doing bins”

InstaBin 1 (6-Sided)

Want higher performance?

- Can be engineered to hold any product; fluid, semi-fluid, solids, etc.
- The InstaBin 1 can hold up to 1750 Lbs.
- Continuous glued bottom for superior structural integrity
- Eliminates need for bottom pad to prevent ‘leakers’
- Vertical Shock System minimizes side pressures prevalent with high speed filling
- Can be engineered to stack up to 5,000 lbs.
